RECOMMENDED SCRIPT USAGE

SAVE TO FILE

If saving to a file, it is highly recommended that the file format does not use lossy compression.
PSD/PSB or TIF formats are probably the best with PNG24 next.

INSTALLATION/REMOVAL

This script should work on Photoshop versions CS6 and CC onwards and for both Windows and MAC.
Might also work with Photoshop Elements. Someone should try it. Please.

The Script filename is PAD_IMAGE.jsxbin and will be loaded to a folder with mostly *.jsx files.
The Help filename is PAD_IMAGE-HELP.pdf and should be placed in the same folder as the Script file.
